HE THOUGHT THE ST. LOUIS AND

The 200 High-number Bonds in Dispute Were Apparently Credited to the Com-pany, White They Were Really His-No Light on the Mystery of Their Issue.

Mr. Frank C. Hollins was cross-examined yesterday by Mr. Larocque and Mr. Safford in hearing before Master Commissioner Wilson about his handling of the bonds of the St. Louis and Chiengo Railroad, Mr. Hollins said that he became a director in the company and a member of the Executive Committee in the summer of 1886, soon after the firm of F. C. Hollins & Co. was organized. The other members of the committee were D. L. Wing, President, and R. S. Hodgin, Secretary. Hollins was also Vice-President of the road. This committee ran the road as far as its fiscal affairs were concerned. Some weeks previous to the execution of the consolidated bonds Hollins had offered them for sale. Among the customers was David D. Withers, who bought 100 at 90. Hollins did not credit the road with these bonds, because, according to his claim, he owned them himself.

Mr. Laroeque's inquiry was directed to determining how Hollins acquired his title to these bonds. The explanation was that Hoilins had purchased a lot of second mortgage bonds which were exchangeable for the consols, and that having made the exchange, he sold the proceeds on his own account to Mr. Withers. Hollins had come into possession of the second mortgage bonds by a formal action of the Board of Directors in September, 1886, At that time the road needed money, and it offered Hollins 150 second bonds at 50, which offer he accepted, and turned the proceeds, \$75,000, over to the company. Wing and Hollins were the only members present at the meeting when the resolution authorizing this deal was passed.

A good deal of difficulty was experienced by sounsel in searching for an entry in Hollins's books which showed that he had accepted the offer, or credited the company with the prothat the company was indebted to him, and that various credits were given to the account,

but he said he received nothing from it. He said:

"We received the \$25,000 from the Holland Trust Company, and, barring a trivial amount paid to the equipment account, paid it all out in interest on the first morrgage bonds,"
"How then," asked Mr. Safford, "were fore-closure proceedings begun for default of this very interest?"

"All that interest was not defaulted. Some of it had been paid. We paid interest on July 1.1888, to any who called and demanded it."
The cross-examination will go on to-day.

Colonists for Peru.

LIMA, Jan. 5.-The 2,000,000 hectares of land granted to the bondholders in the settlement of the debt are given on condition that the concessionaires bind themselves to devote the land to agriculture or industrial purposes, and that colonization shall begin within three years and be completed within nine. It is proposed to divide the concession into four nearly equal portions, situated in different parts of the republic, so that there shall be four large colonies established. The colonisis brought to Foru under this agreement shall be of European race and shall be exempt for ten years from all taxation. In all other respects the colonists shall be subject to the laws of the republic.

The Distribution of Salmon Trout to Bagin a Month Earlier than Usual. One of the earliest harbingers of spring in the eyes of the great community of fishermen is the distribution of fish fry by the State Fish Commissioners. This proceeding usually begins in February. The fry cost the applicants nothing but the express charges and the service of the messenger from the State breeding streams at Caledonia or Cold Spring or the

Adirondack hatcheries.
This remarkable winter has been so much like spring that fry are hatching at the State hatcheries faster than they can be disposed of. Consequently it was a busy day for the commissioners yesterday at their monthly meet ing. There were about a score of applications for salmon trout fry, and the commissioners would have been glad if there had been more Applications of the following persons for satmon trout fry were granted

Furthermore, Commissioner Burden was instructed by Commissioners Biackford. Bowman, and Joline, to relieve the overflow of fry at Caledonia by planting saimon frout in Keuka. Seneca, Hemiock, and Onelda Lakea. The salmon-trout fry to be distributed this year will be older than those distributed in former years. The Commissioners believe that they will thus be better able to escape from the big voracious fish when set free.

Tomeode have become a standard fish in the city markets, and applications for fry increase every spring. Last year 6,000,000 little tomeods were distributed in Huntington Bay, Yesterday an application by W. L. Prime of Huntington for 500,000 tomeod fry was granted. The fry will be sent to the bay from the Cold Spring hatchery.

The next fry to be distributed is brook trout and brown trout. They will be ready in about a month.

The next fry to be distributed is brook trout and brown trout. They will be ready in about a month.

Fourteen applications for leasing land under water for planting young overse were granted. There has been suggested by the Society for the Preservation of Fish and Game, of which Mr. R. B. Roosevelt is President, that the office of the chief game and fish protector should be removed from Albany to New York in order that a closer watch might be kept over the sale of fish and game in the city markets in the close season. Fish Commissioner Burden was commissioned at yesterday's meeting to investigate the matter.

The Legislature will be asked in a few days to appropriate money to build and equip araliway car for the hatching of fish, such as is used by the United States Fish Commission. The States of Michigan and Missouri have each a fish car. Clerk Edward P. Doyle of the State Fish Commissioners is to start for Albany to-day to push the matter. At present many public-spirited fishermen pay for the expense of getting fish fry when the benefit accrues not only to their neighbors, but to wandering fishermen and tourists. Moreover, the fish car can be side-tracked anywhere on the Hudson River where any fish, shad for example, may be running, and fish may be netted and shad eggs be artificially hatched in the car while it is in motion. Dr. Chauncey M. Depew will normit the fish car to be hauled over the New York Central system free of charge.

Chief Fish and Game Protector F. P. Drew reported that Inspector John Sheridan had selzed 10 gill nets on Keuka and Seneca Lakes, Inspector George M. Schwartz has destroyed in Monroe county 4 fyke nets at Vide Waters, 6 at Cramberry Pond, 4 gill nets at Irondemoit fay. An interesting suit against J. W. Gillette of Lewiston, for fishing with nets in the river below Ningara Falls, has just been decided in favor of the State, and Gillette was fined \$50. It sets at rest an old dispute among fishermen in the Niagara River. During the year ending Oct., 1839, the fish and game protestor

now established in nearly every village in the land, and their high-sounding names, in initation of legitimate halls of commerce, with such attractive surroundings as their enormous ill-gotten gains enable them to maintain, are making gambling respectable in communities where cards are an abomination.

"In our own and several other States laws have been enacted expressly to wipe out this evil, but they have not been enforced. The efforts of this association to cease to be the feeder of these immoral institutions, by owning and controlling our quotations, have been unsuccessful, owing to the decision of an elective judiciary, who are unable to distinguish any difference between business and gambling. We seem, then, to be left to our own resources, and after due and careful consideration I am in favor of the only remedy left us, though it may be heroic."

It was said by one speaker during the ensuing debate that the New York Produce Exchange would furnish quotations for the bucket shops if the Chicago Board ceased, but the argument seemed to carry little weight, and the resolution encouraging the directors to act was adouted.

Heinrichs Not Listened To.

C. F. Heinrichs, who was not heard as an ex pert witness before the Coroner's and the Grand Jury, or permitted to cross-examine witnesses in two cases of death by electric shock, has written to Gov. Hill and the Legislature that this was a suppression of evidence by District Attorney Fellows, his assistant, Mr. McDrona, and Coroners schultze and Messemer. Assistant District Attorney Linday said yeaterday that in the case of Salesman Harris the Grand Jury rebelled when expert evidence was suggested. They said it was confusing, and they wanted facts.

A Common Plean Jury Beelden that Father Buffy's Signature was Forged. The issues of fact in the equity suit of Mrs. Mary McShane against her brother, Michael J. Duffy, which had been referred by a court of equity to Part I. of the Court of Common Pleas. ware tried before Indee Allen and a jury yesterday, and a verdict of special findings in favor of the plaintiff was handed in. The suit was brought by Mrs. McShane to set aside five deeds of real estate claimed to have been made by the late Rev. John J. Duffy, pastor of a Catholic church at Kingston, N. Y., to his brother, the defendant, on the ground that the deeds were fraudulent and forged. The points of law in the case have been argued in the courts of equity for more than two years, and last Tuesday the issues of fact were sent by

courts of equity for more than two years, and last Tuesday the issues of fact were sent by the equity Judge to a jury for trial. Ex-Senator Eccisains appeared for the piaintiff, and W. Bourkellockrau for the defendant.

After three days of examination of witnesses and argument by counsel, a set of written questions bearing on the case was handed to the jury with instructions for them to find answers to each. The jury answered to the effect that Father Duffy had never signed the deeds conveying the property to the defendant, and that he had never acknowledged them before the notary public where signature to a certificate of acknowledgment was appended to the deeds, which was as much as to say that the deeds which was as much as to say that the deeds had been forged and that the notary had committed perjury. The notary nublic is Henry A. Brann, a lawyer at 271 Broadway. The facts in the case as they were brought out at the trial are as follows:

Father Duffy died on April 27, 1887, leaving property in this city valued at about \$10,000, and five sisters and one brother who expected to share this property. The property consists of five houses in 115th and 116th streets, under a mertgage of \$25,000 which is held by his brother Michael J. Duffy. Shortly after his brother's death, Michael aunounced that Father Duffy had left no will, and secured letters of administration. On June 13 of the same year he nied on record five deeds signed by John J. Duffy under date of Oct. 29, 1885, conveying the houses in this city to Michael. As soon as the deeds were produced Mrs. MoShane, representing the five sisters, brought suit to have the deeds set aside.

deeds were produced Mrs. McShane, representing the five sisters, brought suit to have the deeds set aside.

It was shown in court that up to the time of his death Father Duffy had received all the rents of the houses himself. Witnesses from Kingston testified that the signatures to the deeds were not his, and a diary was produced in which was found a memorandum to the effect that he intended leaving this house to his sister Julia, such a one to Alice, and so on, distributing them among the five sisters, but making no mention of Michael, whose mortgage on the houses was worth as much as one of the houses. Experts testified that one of the deeds had been traced over faint link, and that the notary's signatures show that they were not all executed on the same day.

The case will now be taken up again either in the Equity Court or in the Special Term, and the Judge will proceed to render a decision hased on the verdict of this jury, though if he thinks the verdict not in accordance with the evidence given before the jury he is not bound to abide by it.

ELLEN CARLEY'S DEFENCE.

A Photographic Negative the Only Wit-

Ellen Carley, a black-eyed, rosy-faced, olump young Irish girl, was on trial yesterday n the General Sessions upon an indictment for grand larceny in the second degree in stealing \$55, a gold watch, a ruby and an emerald ring, and clothing valued at \$45 from Police-man Robert Speridan of the Church street police, in whose home at 129 West Twenty-fourth street she was employed as a servant.

Sheridan testified to the simultaneous dis-appearance of his servant and the missing property on Dec. 15, 1888. On Sept. 28, 1889, he saw Ellen Carley coming from mass lin St.

saw Ellen Carley coming from mass iin St. Peter's Church in Barclay street, and arrested her. In the Tomba Police Court she was committed to await trial.

Mrs. Ellen Barrett testified that Ellen Carley came to her house in December, 1888, and gave into her keeping a \$59 bill and a \$5 bill, and a ruby and an emeraid ring. The money and the rings were afterward identified by Policeman Sheridan.

Mrs. Mary Riordan testified that Ellen Carley sold her a lady's gold watch for \$20, which Sheridan later identified. Other witnesses recognized the prisoner as Sheridan's former servant. Morris Carley said he was Ellen Carley and the was Ellen Carley in the went to work. He positively identified the prisoner as his niece, Ellen Carley testified that all of the witnesses for the prosecution, including Morris Carley, who claimed to be her unele, were mistaken. She had never seen any of them before her arrest. She was living with her family in Ireland in December, 1889, and came to the United States in June, 1889. She went at once to her uncle, John Callahan, at Dobb's Ferry, and, on Aug. 28, 1889, she secured employment with Mrs. Dudley, the janitress at 20 Nassau street through Matron Boyle of Castle Gardon. She had never solen anything from Policeman Sheridan or any one else in her life.

Assistant District Attorney Davis presented evidence that the name Ellen Carley did not appear on the steerage list of the vessel on which the defendant said she came to this country. Mrs. Barrett produced a photograph of Sheridan's servant from her album. It was taken by J. H. Steiner of Jersey City. Lawyer Purdy, Ellen Carley's counsel, sent for Photograph steiner, who brought the negative of the photograph to court. Carefully comparing the defendant with the photograph, he testified that, in his opinion, she was not the original of the negative.

The jury, after deliberating for half an hour, convicted Ellen Carley to treed and the came to the original of the n

He said afterward that strict discipline would be dealt out to both

strict discipline would be dealt out to both Clark and Randolph. Charges of conduct prejudicial to the interests of the society were formally presented against Randolph.

The Executive Committee, after the resignation of George Rutledge Gibson, consists of William G. Crenshaw. Fr. Charles A. Doshon, William W. Flannagan, Robert L. Harrison, and James Swann. All but two were at the meeting. According to the constitution the accused have thirty days in which to answer the charges. They may be suspended or expelled if the charges are sustained. Whatever the result of the trial, an amendment to the constitution will be urged cutting down to ten or live days the time in which to answer in such cases.

Itchy Scaly Skin

Every night I scratched until the skin was raw, Body covered with scales like spots of mortar, An awful spectacle. Boctors useless, Cure hopeless.

Cured by Cuticura

I am going to tell you of the extraordinary change your CUTICURA REMEDIES reformed on me. About the list of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time later on, when it began to look like apots of mortar spotted on, and which came off in layers, accompanied by itching. I would scratch every night until I was raw, then the next night the scales, being formed meanwhile, were scratched off again. In vain did I consult all the doctors in the country, but without ald. After giving up all hopes of recovery. I happened to see an advertisement in the newspaper about your CUTICURA REMEDIES and purchased them from my druggist, and obtained almost immediate relie. I began to notice that the scaly cruptions gradually dropped off and disappsared one by one, and have been fully cured. I had the disease thirteen months telore I began taking the CUTICURA REMEDIES, and in four or five weeks was entirely cured. My disease was eccepta and pacriasia. I recommended the CUTICURA REMEDIES to all in my vicinity, and I knew of a great many who have taken them, and thank me for the knowledge of them, especially mothers who have had babes with scaly cruptions on their heads and bodies. I cannot express in words the thanks to you. My body was covered with scales and I was an awful spectacle to behold. Now my skin is as clear as a baby's. GEO, COTEY, Merrill, Wis.
